

HISTORY

Barbara began her doll career by reproducing porcelain dolls and teaching classes.

In 1997 she discovered sculpting and thus found her true passion. To date Barbara's dolls have been mostly babies and children but she has begun branching out to include Art Dolls. She was accepted as a member of the Professional Doll Makers Art Guild (PDMAG) and several online doll groups. All of her dolls are signed one-of-a-kind and come with Certificates of Authenticity. As new dolls become available she will list them on her webpage and she often makes them available through her Ebay store. If you would like to receive notifications as soon as these new dolls become available sign up on her mailing list through her webpage or email.

ONE-OF-A-KIND MINIS

These small 4 inch one of a kind (OOAK) anatomically correct babies are fully sculpted using artist quality polymer clay, mohair and glass eyes.

Sculpting Books

Barbara currently has two books available that are packed with pictures to help you sculpt your own little babies in polymer clay.

9-10 Inch "Jammy" Babies

These one-of-a-kind (OOAK) babies come dressed in their pajamas or "Jammies". Their head, arms and legs are sculpted using artist quality polymer clay and they have cloth bodies, mohair and glass eyes.

LIFE-SIZE BABIES

These Life-Sized one of a kind (OOAK) babies are created using artist quality polymer clay. They are each about 20 inches long, are weighted to feel just like real babies and wear regular newborn clothes.

Art Figures

Barbara has recently started creating Art Figures. These figures are 12 inches high and are sculpted over a wire armature.
